RE: ML 38305 Met. Minerals

Dear Mr. Hart:

DIVISION OF
OIL, GAS & MINING

On July 6, 1982, the Director cancelled the above numbered lease for Lessee's failure to submit bond, as authorized by Article XII of the lease agreement. Cancellation of this lease, however, does not relieve you of reclamation responsibilities on the property.

Please perform the following reclamation measures on lands covered by ML 38305 within thirty (30) days.

1. Fill in all pits and trenches.
2. Level and contour the surface of all land disturbed at the mine site.
3. Remove all trash and debris.
4. Re-establish natural vegetation communities to prevent flooding or erosion.

Failure to comply with this request within thirty (30) days may result in further action by the State to recover damages.

Sincerely yours,

JOHN T. BLAKE
MINERALS RESOURCE SPECIALIST
